OBJECTIVE

A technically adept and perpetually curious individual, I thrive on translating complex concepts into practical solutions for real-world challenges. My commitment to continuous learning fuels an active exploration of emerging technologies and industry trends. With a parallel passion for automobiles and innovation, I bring a well-rounded and highly motivated perspective to every endeavour.

EDUCATION

JECRC University Jaipur

B. Tech - Computer Science and Engineering, CGPA: 7.4

2022 – 2026

Jaipur, Rajasthan

PROJECT

- **Vehicle Tracking and Counting System** Jan-2025
 - Detects and tracks moving vehicles in real-time from video input using OpenCV.
 - Counts vehicles as they cross a predefined line using motion detection and contour tracking.
 - Utilizes Background Subtraction (MOG2) and bounding boxes for object detection and tracking.
 - Built with Python, OpenCV, NumPy, HTML/CSS, and MySQL for video processing and data storage.
- **Product and Stock Management System**
 - Built using HTML, CSS, and JavaScript without any backend or server-side code.
 - Allows shop owners to add, edit, and delete products, and track available stock directly in the browser.
 - Supports sales recording, which automatically updates inventory levels and maintains a sales history.
 - Uses local Storage to temporarily store data so it persists across page reloads.

SKILLS

- **Languages:** C++, Java, SQL, JavaScript
- **Technologies/Frameworks:** HTML, CSS, OpenCV,
- **Databases:** MySQL
- **Tools:** Git, VS Code, NetBeans, Apache Tomcat
- **Soft Skills:** Time Management, Adaptability, Problem Solving, Attention to detail

CERTIFICATIONS

- Google Cloud Computing Fundamentals – Google 2024
- Gemini for Google Workspace-Google 2025
- Google Generative AI– Google 2024
- Microsoft Excel-Microsoft 2025
- Database for Developers-Foundations-Oracle 2025

ACHIEVEMENTS

- Solved 100+ coding problems on LeetCode, improving problem-solving and DSA skills
- Reliance Foundation Scholarship 2022-present

Hobbies/Interest

- Passionate about vehicle design, performance tuning, and staying updated with automotive innovations and trends.
- Regularly follow news and updates in the mobile and electronics industry.
